

January 1, 2022

Thank you for your continued support of Island Green's collective security program. There are several important items relating to security and the Island Green Community which we would like to share with your Property Owners Association (POA) & all residents of Island Green.

One of the requirements from Horry County's Planning Department for the residential development of the land that was previously the golf course is that improvements are to be provided to Sunnehanna Drive. One result of these future road improvements is that the security building at the entrance will be removed from its current location. The Island Green General Council is in the process of researching and evaluating options to continue providing a security presence for the Island Green community. We are asking for community leaders and residents to participate in this process & we need suggestions, feedback and input.

Monthly meetings for the Island Green General Council are regularly scheduled for the 2<sup>nd</sup> Friday of every month at 11:15AM. It is our hope that each POA will send a representative(s) to these regular meetings to ensure that your POA receives accurate and timely information as to future plans for the Island Green Community. Minutes of each meeting are provided on the Island Green Security website: [www.islandgreensecurity.com](http://www.islandgreensecurity.com). These monthly meetings are open to all residents of Island Green & attendance is encouraged.

Please share the contents of this letter with the BOD for your POA and with all of the residents & owners in your community. We are optimistic that the collective support of Island Green's POAs will ensure that our community continues to be a great place for all.

Respectfully & Sincerely:

The Board of Directors  
for the Island Green General Council
